To Our Customers:

We are presenting to you our fall catalog with the full realization that our Nation is at war. We, the Nurserymen, must help in building morale by supplying stock to civilians to beautify their homes. We are helping keep the supply lines open to our Army by furnishing our customers more plants so that they can produce more foods and fruits to eat.

In this list you will find many varieties of fruit trees that will produce an abundance of fruit for your customers in a short time. Shade trees, shrubs, and evergreens will help in the proper morale building for our civilians. Let us resolve that we will do our part by supplying the Nation with plants to carry on the Victory Garden Program.

With cost of supplies and labor going up, we have been compelled to add a small cost to some items, but we have made them as reasonable as we possibly can under the circumstances. Of course, if supplies and labor go higher, we reserve the right to change our prices without notice.

Due to heavy shipments of war supplies, etc., we suggest that you have your stock shipped as early as possible this fall.

We assure you of some very nice stock if we are favored with your orders and thank you for past considerations. Wishing you a very successful season, we remain,

Yours for Victory,

BOYD NURSERY COMPANY,
F. C. BOYD, Manager.

Extracts from a Few of the Hundreds of Letters We Receive Each Season from Satisfied Customers

Georgia:

"We are pleased to advise that the shipment of Dogwood arrived this morning in very good condition and sincerely appreciate your prompt handling of this order. We were under the impression that your stocks were dug and stored in the heel bed and that you could make immediate shipment. You did, in so far as practical anyway, didn't you?"

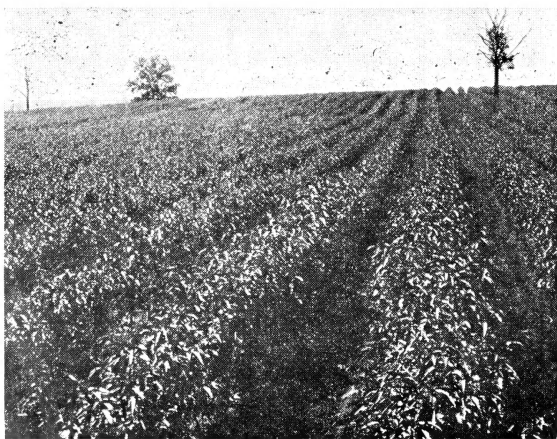

"Thanking you again for the prompt service and with best wishes, we are," etc.

Virginia:

"Last fall I ordered from you 7,000 black walnut seedlings to be shipped to my farm. This stock was duly received and transplanted.

"I have just returned from an inspection of the farm, including the acreage transplanted with walnuts, and it is a pleasure to state to you that the acreage transplanted with your stock measures up to the highest expectations of the most optimistic forester, as this stock speaks for itself, and its foliage is particularly outstanding and noticeable when compared with two similar shipments received from other nurseries.

"I am merely writing this letter thinking it might be interesting for you to know the general favorable comments throughout the community in which your stock was transplanted."

Evergreens

COLLECTED NATIVE—WOODS GROWN

Due to war and other conditions over which we have no control, and rubber situation, we are listing small evergreens subject to our ability to have them gathered from the mountains. We can have them gathered if conditions do not get any worse.

These evergreens are gathered from the mountains only on damp days when the weather is suitable and they are pulled bare-rooted and puddled as they are gathered. Unless otherwise instructed we will ship by express. Some of the collected material will die under the most favorable conditions.

Remember, orders are booked subject to our ability to have them gathered.
